Your provider will input your prescription in our system and within 24 hours your payment will be processed (not including weekends).

2

Once your payment is processed, our team works to get your prescriptions sent into the appropriate pharmacy and ready for customized compounding.

3

Each pharmacy then begins to process, compound, and safety test your prescription. *This process could take up to 14 business days.

4

Once your prescription has been completed at the pharmacy, you will receive a tracking notification via text message in order to keep updated on the status of your delivery. *If you have ordered multiple prescriptions, they may not all arrive in the same packaging due to different sourcing of pharmacies, therefore you may receive multiple tracking numbers for your prescriptions.

Within the next few weeks as your begin your wellness journey, your providers love progress updates, feedback, and cheering you on along the way.
